OUR **ATTRIBUTES** AND **VALUES**

EUROJURIS ATTRIBUTES

- The Eurojuris network consists of active national chapters with high national visibility.
- Our member firms know the culture of their region, the language, the latest developments and the jurisdiction.
- Our members are small and medium-size law firms that are very active in their local area and make our network Glocal = global and local at the same time.
- With Asiajuris, an affiliated member of Eurojuris, we can offer local representation and direct legal advice throughout Asia.
- Together, Eurojuris offers global reach for international legal assistance.
- We have more to offer than the average network because we understand the value of knowing the lawyers in person before recommending them to a client.
- Our members develop friendships and meet at periodic events where they get to know each other.
- Many members have known each other for years through the network and have spent quality time together in cities all across Europe.
- Expertise is important to us: this is why our experts come together in our specialised Eurojuris Practice Groups.
- Eurojuris has Jurismus: an international association of active young lawyers under 40.

... AND CORE VALUES

- **Welcoming**
- **Long-term friendships based on trust and reliability**
- **Active and Connected**
- **Practical Approach**
- **International Culture**

The Groups aim to provide solutions to highly specialised issues in Europe and all over the world. Our Practice Groups continuously develop and grow, so they are always aware of new trends in their market.

Establishing an extensive social and professional international network for young lawyers

Good cooperation between professionals requires understanding as well as trust – both of which are achieved amongst lawyers through our network and its various high quality activities.

Jurismus is an international association of active young lawyers employed in one of the 600 Eurojuris law firms. We want to attract the best European young lawyers to the Eurojuris International network and its member law firms, by:

- Promoting and facilitating business opportunities between young lawyers
- Improving young lawyers' personal, professional and intercultural qualifications through training, debate forums, and high quality academic programmes
- Being the gateway for young lawyers to Eurojuris International and facilitating young lawyers' entrance into the network and its specialist groups.

- Share ideas on how to develop your business connections, both here and in Europe

Personal development : Improving your advocacy skills with other lawyers
